

YOUNG MAN IS SHOT WHILE MOVING GUN

Carl Meyers, of Near Jonesville, Seriously Injured by Accidental Discharge of Shot Gun.

WAS WORKING IN CORN FIELD

Attempted to Hand Gun to His Brother and Hammer Struck Side of Wagon.

Carl Meyers, a young man living near Jonesville, was painfully and quite seriously injured Wednesday by an accidental discharge of a shot gun. Immediately after the accident the unfortunate young man was taken to Jonesville where he received medical attention. At first it was feared that the load of shot had taken effect in his abdomen, but the physicians, after an examination are of the opinion that none of the shot entered his stomach.

Meyers was working in the corn field with his younger brother, Ralph, and when they left their home they took with them a shot gun with which to hunt rabbits which they might see in the field. The boys were driving a wagon about the field, and Meyers started to hand the gun to his brother to place in the wagon. In some manner the hammer struck the side of the wagon and the cartridge, which was heavily loaded was discharged.

Meyers was standing only several feet from the gun when it was discharged, and would have doubtless been instantly killed had not the charge struck him a glancing blow. The shot tore through one hand and several of them pierced his side. Fortunately, however, none of them entered his abdomen as it would have proven much more serious.

The injured man has been employed in Illinois until recently when he returned to assist his father, Henry Meyers, with the fall work upon their own farm. This afternoon it is reported that he is improving and his physicians are greatly encouraged over his condition.

Like a Fairy Tale.

Jackson county being in the apple belt is interested in the predictions that horticulturalists are making that vast wealth in apples awaits the state. Secretary Woodbury of the state organization says the possibilities in this line are dawning upon the state like a fairy tale. He says:

"Indiana has the soil and the climate to grow apples as large, as fine in color and far superior in quality to those grown in the Pacific northwest. 'Apple lands in Indiana can be bought for \$25 to \$70 an acre. In the northwest apple lands of no better quality are selling for \$500 an acre. Joe A. Burton, living between Mitchell and Orleans, is making \$1,200 an acre from apples. A profit of \$1,000 an acre would be 10 per cent. interest on an investment of \$10,000 an acre. As a matter of fact similar land can be bought for \$40. We have been valuing our land on the basis of what it will produce in corn and hogs. We have now to begin to capitalize it on the basis of incomes in apples and there will be some amazing revelations along this line in a few years."

ANNOUNCEMENT RECEIVED OF DEATH OF WM. T. GARRETT

Was Formerly a Resident of Jackson County.—Was Prominent in West.

The news has been secured here of the death at Marysville, Mo., November 24, of William T. Garrett, who is well remembered by older residents of the county. He was born on a farm in Jackson county April 18th, 1840 and before his removal to Missouri in 1868 lived in Brownstown and Hamilton townships. He was a son of David Garrett and his mother's maiden name was Elizabeth Sparks. During the Civil war he was a member of the 8th Indiana Cavalry and was in many important battles. He was twice married, his first wife being Miss Sarah Stafford. Two sons were born to them and both now live in the west. In 1873 he was married to Miss Josephine Forbes of Jackson county. By the second marriage five children were born and are all living.

In 1868 attracted by an advertisement in a St. Louis paper of a farm for sale in Nordaway county, Mo., he moved to that state. He had little money at the time but has since become wealthy farming and stock raising. He was the first farmer in his county to raise thoroughbred hogs and before he left the farm had one of the finest herds in the country. For several years he was president of the Standard Poland China Record Association. He finally moved to Marysville and in 1902 was elected Mayor. The papers of that city say his administration was a model, the town was given a thorough cleaning up and progressive policies established. When he retired from office he was tendered a big banquet by citizens irrespective of party. The Marysville papers give extended accounts of Mr. Garrett's life and say that for many years he had been one of the leading citizens of that section and that his life was closely linked with the development of Nordaway county. The papers also contain testimonials of esteem from prominent men of that section. Mr. Garrett had number of relatives in this county.

FIRST INSTITUTE A GREAT SUCCESS

E. C. Martindale Pleased Large Audiences at Meetings Held at Crothersville.

SECOND INSTITUTE AT KURTZ

On Friday and Saturday Meetings Will Be Held at Brownstown.—Good Program is Arranged.

The first session of the Jackson County Farmers' Institute was held at Crothersville Wednesday and was pronounced as one of the most interesting and beneficial institutes ever conducted in Vernon township. Both the morning and afternoon meetings were largely attended and much interest was manifested by the people of Crothersville as well as by the farmers in the addresses and discussions.

The principal speaker was E. C. Martindale, of Hancock county, who is well known as a prominent institute worker. He gave two addresses, both of which were highly appreciated by the audiences. He spoke upon various phases of farm life, giving a large part of his time to the subject of the care which should be given the soil. He showed very clearly that he was well informed upon the subjects he discussed, and his addresses were highly pleasing to those who were present.

Mrs. Oscar Carter, who has gained quite a reputation in Indiana for her excellent work in the different institutes, also addressed both meetings. Her discussions were well received and highly complimentary.

A good premium list was prepared by the Crothersville merchants, and this was instrumental in creating much enthusiasm in the displays. Frank Daly was awarded the first premium for the best ten ears of yellow corn, and Adam Weisman was given first for the best display of white corn. The number of exhibits was probably the largest ever displayed at an institute at that place, and represented many departments of farm life. The farmers are well satisfied with the institute and will strive next year to make it even a greater success.

The second session of the institute was held today at Kurtz. Mr. Martindale was also the speaker there and pleased good audiences in the morning and afternoon meetings.

On Friday and Saturday the institute will convene at Brownstown, and will be conducted upon a more elaborate plan than in the other places. A very complete and interesting program has been arranged, including addresses by Mr. Martindale, Miss Ethel E. Berry, of Purdue University, and Prof. J. Troop of the same institution.

A score of various subjects will be discussed at the meetings, and many of the leading agriculturalists of the county will speak upon various questions in which they are especially interested. One of the largest premium lists ever secured at Brownstown has been offered and much attention is given to the exhibits in all departments.

The institute in Seymour will be held January 5 and 6, and already the officers have begun to make arrangements for the accommodation of the visitors who are expected at that time. The program for the local institute has not yet been completed but will be ready for publication within a short time.

Linen Shower.

Mrs. Pearl DeGolyer entertained about thirty-five lady friends Wednesday evening at her home, 310 N. Popular street with a linen shower complimentary to Miss Glen Kennard, who is soon to become the bride of Mr. Ed Hopewell, the wedding to occur this month. The house certainly presented a most beautiful appearance, being profusely decorated with holly, tiny wedding bells, cupid hearts and streamers of red and white ribbons were in abundance throughout the entire house, together with carnations of the same colors, red and white being the predominating colors throughout the evening. The wedding was announced in a very unique manner. Each guest was given an English walnut tied with red ribbon, containing a verse. Beginning with number one the chainless conversation began ending with the announcement. An elegant two course luncheon was served.

Miss Kennard was the recipient of numerous handsome and very appropriate gifts and furnished a great deal of amusement in untying the same. Mrs. DeGolyer was assisted in entertaining by Misses Della Hopewell and Faye Holmes of this city, and Miss Hazel Pruden of Cortland. The out-of-town guests were Mrs. C. H. Weithoff of Columbus and Miss Edna Hall of Azalia. The favors were tiny rice bags containing a miniature photo of the bride and groom elect. Mrs. DeGolyer is an ideal hostess and certainly did justice to the occasion of last evening.

Business Deal.

A deal has been closed by H. C. Dannettell by which H. Crawford becomes the owner of the Hoosier Cash Grocery on South Chestnut street, which was purchased some time ago by J. W. VanArsdale. Mr. Crawford moved here from Bedford several months ago and purchased the Dodd restaurant, opposite the interurban station. He took possession of the grocery today and expects to push the business and make a first class establishment. In the trade Mr. VanArsdale takes the restaurant and is now in possession of it.

TRIAL BEGINS IN THE CONTEST CASE

Board of County Commissioners Decides It Has Jurisdiction in Suit.

ATTORNEYS ARGUE DEMURRERS

Specifications Alleging Ineligibility To Serve as Officer Are Stricken Out.

The case, which was filed by William Goecker, republican candidate for sheriff to contest the election of Jerry McOsker, who was declared elected by the canvassing board by a majority of thirteen votes, was called before the board of county commissioners this morning. A great amount of interest has been shown in the case, and a large number of attorneys and others who have followed the case, were present at the hearing. As soon as the commissioners met, Koehenour & Prince, attorneys for McOsker, filed a demurrer to the complaint upon the grounds that it did not state sufficient facts, but this was overruled by the court. The attorneys then filed a demurrer to each of the five specifications and these were also overruled. The attorneys for the contestee argued that the case had not been filed in the proper manner, and that the commissioners had no jurisdiction. The contestor alleged that the proceeding was brought in the right court under a new law which was enacted in 1909.

Upon the motion McOsker's attorneys, the court ruled to strike from the complaint the last two paragraphs, which alleged in substance that the contestee, McOsker, was ineligible to hold the office of sheriff on account of the collection of certain money which it was alleged he held, and which should be returned as public funds. The specifications making his allegation were based upon the report of the field examiners, who reported an alleged error in McOsker's accounts while he was serving as trustee of Brownstown township, and also as sheriff. These specifications were ordered stricken from the complaint upon the grounds that they were premature, and such allegations would not be available until after January 1, the time when the contestee should begin his second term.

After the preliminary rulings were made the court ordered that the ballots be brought to the office of the auditor and the trial proceed. The counting of the ballots had not begun at 3 o'clock this afternoon.

NEWSY PARAGRAPHS.

Last night was the coldest night of the winter, the temperature dropping to ten degrees above zero.

Mrs. Sarah Congdon is in very poor health at her home on N. Fifth street. Mrs. Congdon will be eighty-two years old in a few days.

Manuel Tatlock moved from the property he recently sold on Central Ave. to Dr. B. S. Shinness, Wednesday into Robt. Irwins' house on West Third street. It is understood Dr. Shinness will take possession of his newly purchased property immediately.

Miss Laura Shepard, who is in the Indianapolis Sun contest from this district is certainly making a splendid showing as in the vote as published Wednesday. She stands only the third highest which shows that Miss Laura is doing good work in her territory.

John Sullivan, who resides in Bartholomew county, about three miles north of Waymansville, was in Seymour Wednesday night about 11:45 o'clock trying to get trace of his son, Oscar, who had driven here in the morning with a neighbor. The boy is only twenty years of age, and when he did not return home at a reasonable hour his parents became worried, and his father started out after him. After some investigation it was found that the parties had left here about 8 o'clock and were possibly home shortly after his father reached the city.

HUGH BURRELL HAS SECOND HABEAS CORPUS HEARING

Set For 9 o'clock This Morning and Outcome is Not Yet Known Here.

The second habeas corpus hearing for Hugh Burrell, the ex-banker at Brownstown, was held this morning at 9 o'clock at Muskogee. No further particulars of the case have been received here, and it is hardly possible that the result of the hearing this morning will be known here before an early hour this evening.

Upon a previous habeas corpus hearing Burrell was released, but was immediately rearrested by Attorney McAdams, who had been sworn in as a deputy sheriff. From a dispatch received from Oklahoma it seems that Dr. Tilley, one of Burrell's bondsmen upon his \$10,000 bond, desired to withdraw from the bond and surrender the prisoner. The difficulty was finally arranged, however, the second hearing was set for today.

"St. Elmo," Coming to The Majestic Tuesday Evening.

"St. Elmo," dramatized from the novel of that name, is one of the offerings of the theatrical season. With exceeding care, Miss Grace Hayward who gave "Graustark" to the stage, has transformed Augusta Evans Wilson's powerful novel into a touching play. Her deft treatment of the dramatic incidents with which the book is filled to the brim has made it possible to visualize the characters in a way that will delight every theatre-goer. It is to be presented here by a company of ability. A cordial reception is assured for the reason that the book itself retains to a large degree its great popularity.

St. Elmo has been a book for thousands. Its romance is bewitching, its religious spirit is fervent, its power to thrill grows from chapter to chapter until the most casual reader finds his attention enchained and himself wrapped in the lives of the folk who move in and out of its action.

INCREASING IN VALUE

Indiana Farm Land Almost Doubled In Value in Ten Years.

Farm land in Indiana increased in value 94 per cent. between 1900 and 1910. This fact is announced by the United States census bureau, which today made public a preliminary comparative statement on Indiana's agricultural statistics. The statement given out by the bureau shows that every branch of agriculture in the state made great progress during the last ten years.

The increase in the total expenditures for farm labor was 85 per cent; the increase in the total value of buildings, 72 per cent; the increase in the total value of farm implements and machinery, 50 per cent; in expenditures for fertilizers, 40 per cent. The total number of farms in the state decreased 3 per cent. during the ten-year period, and the total farm acreage decreased 2 per cent.

The statement shows in detail that the number of farms reported in 1910 was 214,741, as compared with 221,897 in 1900, a decrease of 7,156, or 3 per cent. The total value of farm land and buildings was given in 1910 as \$1,590,225,000, as against \$841,735,000 in 1900, an increase of \$748,490,000, or 89 per cent. The total value of farm land alone was reported in 1910 as \$1,325,475,000, as compared with \$687,633,000 in 1900, a gain of \$637,842,000, or 94 per cent. The total value of the farm buildings alone was given in 1910 as \$264,750,000, as against \$154,102,000 in 1900, an increase of \$110,648,000, or 72 per cent.

In 1910 the value of the farm land alone constituted 83 per cent. of the total value of land and buildings, as compared with 81 per cent. in 1900.

The reported value of farm implements and machinery was \$40,880,000 in 1910, as against \$27,330,000 in 1900, a gain of \$13,550,000, or 50 per cent. The total acreage reported in 1910 was 21,264,000 acres, as compared with 21,620,000 in 1900, a decrease of 356,000 acres, or 2 per cent.

The improved acreage was returned in 1910 as amounting to 16,903,000 acres, as against 16,680,000 in 1900, an increase of 223,000 acres, or 1 per cent. In 1910 the improved acreage formed 79 per cent. of the total acreage, as against 77 per cent. in 1900. The average acres a farm reported in 1910 was ninety-nine, as compared

with ninety-seven in 1900, a gain of two acres, or 2 per cent.

Of the whole number, 214,741, of farms reported in 1900, these were 213,937 operated by white farmers and 804 by colored farmers, as compared with a total of 221,897, in 1900, of which 220,835 were conducted by white farmers and 1062 by colored. The decrease in the number of farms of white farmers during the decade amounted to 6,888, or 3 per cent., and in the colored 258, or 24 per cent.

The total number of farms operated in 1910 by owners, part owners and owners and tenants, comprising the "all owners" class, was 148,001, as compared with 156,227 in 1900, a decrease of 8,226, or 5 per cent. The total number conducted in 1910 by cash tenants, share tenants and cash and share tenants, comprising the "all tenants" class, was 64,451, as against 63,448 in 1900, a gain of

1,003, or 2 per cent. The total number of farms operated as compared by managers in 1910 was 2,289, as compared with 2,222 in 1900, a gain of 67, or 3 per cent.

People Who Work Indoors With Their Hands

Seamstresses, watch-makers, artists, draughtsmen, and many others, cannot properly handle their tools with cold, stiff hands. Many a lost hour or two on cold winter mornings results from the delayed heat of furnace or stove.

The Perfection Oil Heater in a few minutes gives the temperature that assures the worker warm hands and pliable muscles. The

quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. Has automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so the wick can be quickly cleaned.

It has a damper top and a cool handle. Indicator always shows the amount of oil in the font. The filler-cap does not need to be screwed down; it is put in like a cork in a bottle, and is attached to the font by a chain, and cannot get lost.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for reworking. The Perfection is finished in japan or nickel, is strong, durable, well-made, built for service, and yet light and ornamental.

Prunes, when you stew them are a mighty nice thing to begin breakfast with. Don't you think so?

There is lots of difference in the kinds of prunes you get though. If you want to get real nice prunes you must go to a grocery that carries good prunes and other fruits.

Prunes are nice and healthy too. They make a goodeconomical breakfast fruit, because you can get a whole pound of extra large ones for 15c.

TO TALK THINGS OVER IN CAUCUS

Indiana Legislators Preparing For Coming Session.

THE POLICY OF THE MAJORITY

Sentiment of Practically All the Democratic State Senators Who Gathered at Indianapolis Today Is That It Will Be Safe to Follow the Leadership of Governor Marshall—Republicans to Meet Next Week.

Indianapolis, Dec. 8.—The Democratic state senators assembled here today in response to a call issued by Lieutenant Governor Hall, and an effort will be made to outline a plan of action and a course for the Democrats to pursue during the coming session of the legislature.

It is said that the sentiment of practically all of the senators is that the platform promises should be carried out as quickly as possible after the session begins, and that whatever program is mapped out should be based on the platform. It is admitted that the Democratic members of the legislature believe they will be perfectly safe in following the leadership of Governor Marshall in the matter of legislation and the redemption of the pledges made by the party.

Republican members of the legislature have been called to meet here on the afternoon of Tuesday, Dec. 13, to talk over their course of action at the coming session. Among other things which will probably be considered at this meeting will be the selection of a floor leader for the Republicans in the house and one in the senate. There is talk that Senator Edgar Durre of Evansville may be chosen floor leader in the senate, and that Representative Miles J. Furnas of Winchester may be made the house floor leader.

The Republican conference will be held one day previous to the conference of Democratic representatives, which has been called for Wednesday, Dec. 14.

IMPRISONED BRIDE

Absent-Minded Bridegroom Reverts to Bachelor Habits.

Gary, Ind., Dec. 8.—That even a bridegroom can be so forgetful of his wife as to forget that he is married was demonstrated by Clyde Hunter, an attorney, when he unthinkingly locked his young wife in their apartments for twelve hours. Early in the morning Mr. Hunter arose to attend to court matters at Crown Point.

Following his usual custom Hunter locked the door to his apartments and put the key in his pocket. Later when Mrs. Hunter rose and tried to leave her room to go to breakfast she found she was a prisoner. She was unable to attract the attention of the neighbors and was forced to stay hungry in the room for twelve hours until the absent-minded husband's return in the evening, when he found her in tears.

Young Hunter's Pitiable Plight. Greencastle, Ind., Dec. 8.—With part of his skull blown away, Bidwell Craver, aged nineteen, who lives near Fillmore, a small town east of this city, walked and crawled over a mile. He was hunting when his gun was accidentally discharged. Neighbors who followed the trail of blood to the scene of the accident found that he had fallen five times in the snow. He was unconscious when found a few hundred feet from his home. He will probably die.

Deadly Crossing Claims Another. South Bend, Ind., Dec. 8.—A grade crossing of the Lake Shore railroad in this city has claimed another victim in Michael Pinter, aged fourteen. He was hunting when his gun was accidentally discharged. Neighbors who followed the trail of blood to the scene of the accident found that he had fallen five times in the snow. He was unconscious when found a few hundred feet from his home. He will probably die.

In Custody at Muskogee. Brownstown, Ind., Dec. 8.—A message received here says that Governor Haskell of Oklahoma has granted a requisition for the return of Hugh Burrell, the fugitive banker of Brownstown. The prisoner is in custody at Muskogee, where habeas corpus proceedings have been instituted.

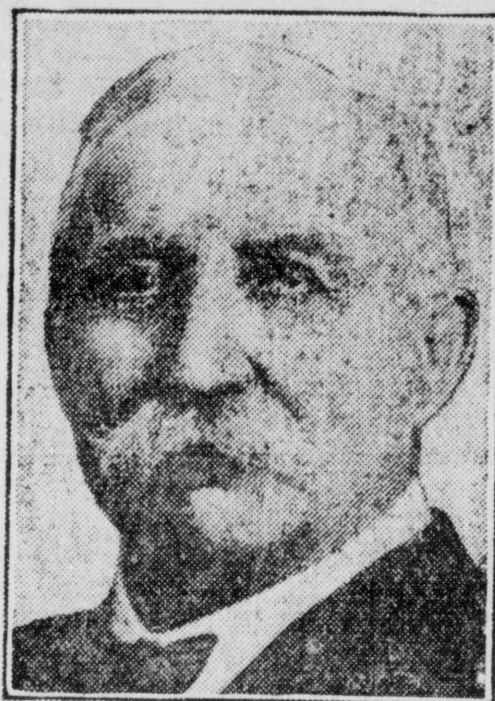

Two Boys and a Gun. Indianapolis, Dec. 8.—In a good-natured contest with rifles, in which each tried to aim as directly at the other as possible without hitting him, Albert Fern, fifteen years old, was shot in the forehead and killed by Jesse Osborn, sixteen years old.

Examine Your Twos. South Bend, Ind., Dec. 8.—The new counterfeit \$2 bill has made its appearance in this city and the banks have posted warnings to citizens advising extreme caution in the handling of any bills of this denomination.

The First of the Kind. Elwood, Ind., Dec. 8.—Mrs. Mary Coppock, the first woman ever arrested here on a blind tiger charge, was found guilty, fined \$50 and sentenced to thirty days in jail.

FRANK HALL

Lieutenant Governor of Indiana Heads State Senatorial Confab.

GOOD ROADS BETTER THAN PANAMA CANAL

This Is the View Held at Indianapolis Meeting.

Indianapolis, Dec. 8.—The declaration that good roads are more important to the people than the Panama canal, and the good roads question paramount to the tariff, was made at the American good roads congress. The statement divided interest with the definite assurance of the co-operation of the motherhood of America in the fight for better highways.

Samuel Hill, president of the Washington State Good Roads association, and recognized internationally as a highway authority, made the declaration and presented arguments to prove his assertion, while the assurance of the active support of the women came in a letter to the congress from Mrs. Frank DeGarmo of St. Louis, chairman of the department of the national congress of mothers, known as the "good roads for child welfare department."

Both Mr. Hill and Mrs. DeGarmo were the recipients of such demonstrative receptions that there could be no question of the attitude of the delegates toward both.

A GLOBE TROTTER

Young Hoosier's 10,000-Mile Jaunt Checked at Lafayette.

Lafayette, Ind., Dec. 8.—After ten months of continual wandering in many different parts of the United States and Mexico, covering 10,000 miles in all, Edward Meyer of Indianapolis, a fugitive from the boys' reform school at Plainfield, was captured here by the police and will be returned to the Plainfield institution. Young Meyer is bright and shrewd and says that all the time he has been a fugitive he has been "on the square."

To Encourage Outdoor Sleeping.

Terre Haute, Ind., Dec. 8.—The charity society which will spend the money received as its share from the sale of Red Cross stamps has decided to fight tuberculosis by building shacks in the yards of afflicted persons. By this method a man who cannot afford to leave his work may have the fresh air treatment by sleeping outdoors at his home.

Talked It Over With Coroner.

Danville, Ill., Dec. 8.—Pearl Freeman, aged twenty-six, a farmer living near this city, committed suicide by drinking poison. He leaves a widow and three children. Freeman rode into the city with the coroner of the county, and during the trip they discussed suicide. Despondency is supposed to have been the cause.

APPLES GROWN IN JACKSON COUNTY PLACED ON DISPLAY

Shown at Horticultural Meeting That Indiana Apples are Equal to Those of the West.

For the first time since the Indiana Horticultural Society began its annual meetings fifty year ago, tangible evidence that better apples can be produced in Indiana than in the much lauded apple growing communities of the west, was given Wednesday before the members of the society by B. W. Douglass, state entomologist, who has given the last eighteen months to a study of apple conditions throughout the state.

Mr. Douglass has been in close touch with apple growers of the state, and when he proposed that they exploit their orchards they gave him assistance. Apples of a number of varieties, but particularly Northern Spies, Ben Davises and Baldwins, were sent to him for display and were arranged on the tables in the rooms at the statehouse, where the association held its meeting.

To provide a comparison between the Indiana fruit and the western fruit, Mr. Douglass bought in the open market in this city apples from the western apple fields and placed them alongside the Indiana grown fruit. In color, substance and preservation the Indiana fruit outranked the western fruit. The Indiana apples were taken from stock which the farmers had laid aside for their own use during the winter and was representative, Mr. Douglass said, of an average Indiana fruitage when the orchards were cared for. The apples obtained in the market were such as a housewife might expect in an average order telephoned to the grocer.

Several fruit growers from this county had apples grown in their own orchards on display and all of the Jackson county exhibits were given high commendation. It was shown by the displays that this county can grow as good a quality of apples as can be produced in the state, and the local horticulturalists were highly pleased with the apples which were displayed.

Mr. Douglass also displayed sample of fruit from the same orchard, some from trees which were cared for by spraying and some from trees which were permitted to bear without spraying. There was no difficulty in telling which came from the trees that were cared for.

The action of the county commissioners which was influenced by the advice of the county attorney, in reducing the election expenses meets with the approval of the public. The members of the various election boards are officers and should be given reasonable remuneration for their services, but the commissioners are right when they decided to follow the law strictly in regard to the payment for such work.

Paying Election Boards.

Trustee Charles Steinwedel has received the money for the payment of the members of the election boards, and is now giving it out as they come for their compensation.

For a Long Life

Fresh air and exercise, with proper food and a sufficient amount of sleep are the essentials.

Under such a regime of living, germs cannot develop and many diseases are prevented.

Should the system require a tonic, take only such as you know their ingredients—such is Vinol, which is a delicious combination of the health-giving properties of the cod's livers, with all the useless grease eliminated and tonic iron added, happily blended in a mild, medicinal wine.

For this reason Vinol is regarded as one of the greatest body builders and invigorators for aged people. It invigorates and builds them up and keeps them up.

We sell Vinol with the understanding that if it does not give satisfaction the price will be returned. Andrews-Schwenk Drug Co.

MONTAUK TRIBE LEGALLY DEAD

Long Island Indians Once Manufacturers of Wealth.

WAMPUM CAUSED STRIFE.

Pequots and Narragansetts Reduced Number of Sea Worshipers—Ancient Land Holdings Taken From Descendants After Long Litigation. Valuable Tract Sold For Kiss.

The Montauk tribe of Indians is officially and legally dead. It is so written in the records, and the waves beating against the Long Island shore mean it as a requiem.

Before Columbus or Cabot set sail for the hemisphere somewhere far away to the unknown west the ancient Montauks, Indians alike of land and sea, were wont to greet the sun as it rose with smiling face from out the deep or toss their weather tanned heads when the waves welled in stormy tumult. Now from the deck of the passing liner one may picture the bent figure that once typified the grandeur of a race that was.

Long Island in the days before the coming of the Dutch was called Island of Shells. It was the aboriginal treasure house, the home of that which spelled wealth. Wampum grew thereon as the gold nestles in the rocks. Wampum was Indian money; it was made from the stock or stem of the periwinkle. Paque was a medium of exchange of lesser value. It was cut from the purple heart of the hard clam shell. Some bronze face financier gave the flat that the sand banks were to be the tribal repositories, and from that time on, for generation after generation, Montauk was at once the bourse and the Wall street of Indian operations.

Pequots Found Easy Money.

One day when Long Island sound lay warm and placid twosome or more of Pequots who lived on the Connecticut shore bundled into their canoes and paddled over to the headlands of Montauk for a fight. It was a sad affair. The Montauks were trimmed. That night when the Pequots pointed their barks for Connecticut they carried with them a portion of their neighbors' bank roll.

It didn't take long for the news to get around that the Montauks had most of the ready cash. A considerable tribe of ambitious and hopeful In-

dians, known as the Narragansetts, occupied, among other places, what is now fashionable Newport. So they sent part of the naval reserve of the tribe to make a demonstration on the island.

This time the Montauks weren't so easy. They met the Narragansetts on the beach and fought them until dark. Some time thereafter, or about 1641, an understanding was arrived at by which the Montauks and the Narragansetts got along without further fighting.

Sold Land For Kiss.

When the Indians began to dispose of their lands on Long Island they at first got real Dutch money or its equal in usable barter. But it wasn't always so. Take the gallant old Chief Smackatagh, for example. He held a considerable stretch of wave washed land on the ocean side of the island. One Sally Higbee, a buxom young maiden, was anxious to acquire a tract upon which she and her intended husband might make their home. Smackatagh—suggestive name, in view of the incident—offered to sell the required acres.

"How much?" asked Sally, leaning against the door and rolling her hands up in her apron.

The big chief's solemn face broke into a grin as he replied that he would sell it for a kiss. What did Sally do? Why, she sat down with her father, who knew a thing or two about such laws of contracts as obtained at the time, and drew up a contract, which the chief signed. Then she turned her plump cheek to the Indian, who kissed it and went away satisfied.

In 1659, when all the Montauks of fighting age were summoned to council, their number exceeded 600. Warfare and sickness made such great inroads during the next three generations that instead of increasing in number they had become less than 200 in 1759. In 1829 a tribal roll call was answered by only thirty, and forty years thereafter there were only twenty.

Tribe Now Extinct.

The last real council of the tribe was convened in the early seventies. Chief David Pharaoh went to the council arrayed in all the ancient plumery of the Montauks and called his followers to their places in a semicircle around him. He passed the pipe from one to another in silence and then addressed them as the father of the tribe. Could it be, he asked, that the tribe, which had lived for centuries in happiness on Long Island, was doomed to extinction? What had the tribesmen to say? Nothing.

For half a century more or less the Montauk Indian lands have been in litigation. Deeds bearing date of 1660 were shown in court during the several hearings. What the tribe might have succeeded in accomplishing had it been able to count its people on the fingers of two hands and prove that they still lived together under tribal conditions need not lead to speculation.

JACK ABERNATHY

Old "Catch-'Em-Alive" Is Out of His Federal Job.

TAKE YOUR OLD JOE,
SAID JACK ABERNATHY

Under Fire, "Catch-'Em-Alive"
Wrote His Resignation.

Washington, Dec. 8.—"Catch-'Em-Alive" Jack Abernathy, who was appointed United States marshal for the western district of Oklahoma by Mr. Roosevelt in his second administration, is out of Uncle Sam's employ. Charges were recently made against Abernathy and he had come to Washington to answer them. He called at the attorney general's office for that purpose, but found it harder than was the White House in the good old days. Jack cooled his heels in Mr. Wicksham's reception room for about five hours, pacing up and down impatiently and occasionally giving his belt a vigorous tug.

Finally Abernathy's patience became exhausted. He walked out in the reception hall, picked up a slip of paper and wrote his resignation on it. Then he handed it to Mr. Wicksham's secretary with the remark, "I guess that will explain my position." After that he stamped out of the office.

"They can have their job if they

want it," declared the champion wolf catcher. "I'm going over to New York to see the colonel."

The ex-marshal added, however, that he would die before he would let the colonel use his influence in his behalf. He said there was nothing in the charges against him. The department has not disclosed the character of these charges, but it is understood they do not refer directly to the administration of his office.

IOWA HAS CHAMPION STEER.

Shamrock II, to Be Slaughtered to Aid Iowa College.

Shamrock II, a black grade calf ten months old, but weighing 1,100 pounds, won the honor of being the grand champion of champions of the fat cattle division of the International Live Stock exposition at Chicago.

This honor was conferred by a man regarded on two continents as one of the greatest judges of cattle in the world—Richard G. Carden of Fishmoynne, Templemore, County Tipperary, Ireland.

Fat little Shamrock II did not know that his reward for winning the grand

CHAMPION STEER SHAMROCK II.

championship at this year's stock show would be the forfeit of his head. His deathknell was sounded by Professor W. J. Kennedy of the Iowa State college, who condemned this wonderful 1,100 pound calf to be led to the block. But the butcher that gets him will have to pay a fancy price, for Shamrock II is to be put up at auction, and the proceeds of his sale will go to the state college at Ames, Ia.

The Iowa State college has won three grand championships within ten years. Shamrock I. won the prize in 1902, and Black Rock was awarded the ribbon in 1905. Both of these animals were pure bred Aberdeen Angus. The new champion is an Aberdeen Angus grade.

TRAIN STOPPAGE EXPENSIVE.

Varies From Forty-two Cents to One Dollar, Engineer Says.

According to Signal Engineer J. A. Peabody of the Chicago and North-western railway, who investigated the matter on his own line, the cost of stopping a train of 530 tons and returning to a speed of fifty miles an hour is 42 cents.

The cost of stopping a 2,000 ton train from thirty-five miles an hour is \$1.

The officials of another road estimate each stop of a six car passenger train from forty-five miles an hour at 35 cents and for a 1,500 ton train from fifteen miles an hour at 56 cents.

The time lost for making a stop on a level, straight track has been estimated at 145 seconds.

Take Care.

When the kidneys are effected, life is in danger. Read what Foley Kidney Pills have done for your neighbor. Mr. Emmet Jackson, Bloomington, Ind., says: "For the past few years I have worked over turpentine which I think is the cause of my kidney trouble. It started with an acute pain in the back over the kidneys. I felt all out of sorts and was annoyed by an irregularity of the kidneys accompanied by a scalding and burning sensation. There was a continual tenderness in the loins and a general feeling of weakness that unfitted me for my daily work. My eyes began to bother me and I had terrible headaches with dizzy spells. At this time I commenced taking Foley Kidney Pills and soon improved under the treatment. I kept it up steadily and now thanks to Foley Kidney Pills am well and strong again.

Use Your Street Address.

In a city having free delivery of mail everybody should see that their mail is addressed to their street number to avoid possible delay of delivery. Never act on the theory that every person in the city knows you and knows just where you live. Residence are given numbers in order to facilitate the delivery of mail. It is an easy matter to write the number of your house at the head of every letter you write and thus get your friends in the habit of using your street number when writing you.

HERE IS A REMEDY THAT WILL CURE ECZEMA. "We Prove It"

Pellens Drug Store guarantees ZEMO, a clean liquid preparation for external use to rid the skin of the germ life that causes the trouble? One application will relieve the itching and often times one bottle is sufficient to cure a minor case of eczema.

In over 2,000 towns and cities in America, the leading druggist has the agency for ZEMO and he will tell you the marvelous cures made by this clean, simple treatment. ZEMO is recognized as the cleanest and most popular treatment for eczema, pimples, dandruff and all other forms of skin or scalp affections whether on infant or grown person. Will you try a bottle on our recommendation? A. J. Pellens Drug Store.

Wrap Packages Securely.

In preparing Christmas packages for transportation through the mails be sure to wrap them securely. Care in this matter insures delivery in good condition. The address should be written plainly on the package. Many packages go wrong because of illegible and imperfect addresses. The sender of packages should use care in preparing it for the mail.

You Must Read This if You Want the Benefit.

J. W. Greer, Greenwood, La., suffered with a severe case of lumbago. "The pains were so intense I was forced to hypodermic injections for relief. POET USES GUN ON HATED RIVAL

Sensational Incident In Mexican House of Deputies.

MIRON ATTACKS CHAHITAL

Well Known Poet, a Member From Puebla, Shoots Deputy Chahital, Also Well Known Throughout Mexico, As the Two Were Entering the Chamber of Deputies—Incident Created Great Excitement.

City of Mexico, Dec. 8.—Deputy Salvador Diaz Miron of Puebla, noted throughout Mexico as a poet, shot twice and slightly wounded in the temple Deputy Juan Chahital of Oaxaca, when entering the house of deputies yesterday. Hot words occurred between the two men before the shooting. It is said there was a long-standing feud between them. Chahital grappled with his assailant, preventing him from shooting again. Friends then intervened. The police were immediately notified, but no arrests were made, as deputies are exempt while serving. It is expected that Miron will be expelled by the chamber and that he will then be arrested. The affair caused great excitement in the city. The chamber of deputies immediately adjourned.

Enrique Creel, minister of foreign affairs, has been given leave of absence to go to Chihuahua. It is said he is going to look after his private interests and give assistance to the government troops against the rebels. During his absence Sub-Secretary Salado Alvarez will have charge of the foreign department. It is understood here that if the revolutionists gain further successes in the north they will have a chance of being recognized as belligerents by the Washington government. Senor Creel will, it is said, take action to prevent this.

Vice President Ramon Corral has returned to Tehuacan on account of his health. It is not known how long he will remain there. It is thought that a battle is now going on at Guerrero, which town has been strongly fortified by the rebels. It is expected that if the government troops attack the place there will be a bloody battle, as the rebels are prepared to make their first strong stand there.

Drawing the Troops On.

El Paso, Tex., Dec. 8.—News from the insurrection infected region of Chihuahua, Mexico, is that the insurgents are falling back into the mountains as the regular troops advance, in the hope of drawing the troops into the rough country before fighting.

Many Newspapers Suppressed.

Mexico City, Dec. 8.—Anti-Diaz newspapers are being suppressed by the government all over the country on the ground that they are advocating sedition on the part of the people and are fomenting disorder.

A MEDICAL TRUST

Logansport Doctor Says There Is One in Indiana.

Indianapolis, Ind., Dec. 8.—When Charles D. Pettigrew of Logansport appeared to show cause why his license should not be revoked, the old antagonism between the advertising and nonadvertising physicians held the attention of the state board of medical examination and registration. The charge against Pettigrew, filed and backed up by members of the Cass County Medical society, was that in published advertisements he had made assertions which were "false, misleading, obscene, licentious and immoral."

Pettigrew, in advertisements published in Logansport, referred pointedly to the "medical trust" as he termed it, in Cass county, and when on the witness stand before the board, reiterated his statements and declared that there was such a "trust" in Indiana, and particularly in Logansport, where, the physician said, the other physicians had united against him to injure his business.

"It was the medical trust in Indiana, and especially in Terre Haute," said Pettigrew, "which set me to advertising." The case went over till Jan. 11.

To Reimburse the State.

Washington, Dec. 8.—A bill has been passed in the house appropriating \$43,000 to reimburse the state of Pennsylvania for militia troops furnished the Union during the civil war.

ABELL CASE TAKEN UNDER ADVISEMENT BY JUDGE SHEA

Suit Dates Back to a Deed Which Was Made by Alice Abell, Deceased, in 1874.

The case of Francis M. Abell to break the deed to some real estate located in Jackson and Redding townships, which was tried in the circuit court Wednesday was taken under advisement, and the decision will not be given by Judge Shea for several days. Although there were twenty or more witnesses subpoenaed to appear at the trial, only a few of them were called to the stand. The principal witnesses were Francis M. Abell and his son, chief of police J. T. Abell.

The case dates back to a deed which was made in November, 1874 by Alice Abell, deceased, the first wife of Francis M. Abell. The defendants in the suit contend that by the deed the plaintiff, Francis M. Abell, was given a life interest in the real estate in question and upon his death the prop-

erty was to be divided "among her own bodily heirs by her present husband."

The deed, it is said, has never been recorded and the plaintiff alleges that it was made for a specific purpose, and that it should not stand. The defendants in the case are chief of police J. T. Abell of this city and the heirs of Frank Abell, deceased, both of whom were children of Alice Abell.

There were several questions of law regarding the case which the attorneys desired to discuss by brief, and these will be submitted before the case is determined. Kochenour and Price, of Brownstown represent the plaintiff and T. M. Honan of Seymour, and Julian Sharpnack, of Columbus, are the attorneys for the defendants.

James Combs, who is employed at Edinburg, visited his father at Crothersville this week.

After The Grippe

"I am much pleased, to be able to write and thank you for what Cardui has done for me," writes Mrs. Sarah J. Gilliland, of Siler City, N. C.

"Last February, I had the Grippe, which left me in bad shape. Before that, I had been bothered with female trouble, for ten years, and nothing seemed to cure it.

"At last, I began to take Cardui. I have taken only three bottles, but it has done me more good than all the doctors or than any other medicine I ever took."

MAJOR PEYTON

Superintendent of Indiana Reformatory Says Nothing.

GENERAL CONDEMNATION

Labor System in Force in Indiana State Prison Denounced by Unions.

Indianapolis, Dec. 8.—In the report of the special committee of the State Federation of Labor, which recently visited the prison and reformatory for the purpose of making recommendations to the federation concerning convict labor, a general condemnation of the prison labor system in force in the state prison and the state reformatory is expressed. A copy of the report has been placed in the hands of the governor by O. P. Smith of Logansport, chairman of the committee, through President Hughes of the federation. The governor will go over it carefully before making any recommendations to the general assembly on the subject concerned.

He Has Nothing to Say.

Jeffersonville, Ind., Dec. 8.—Though apparently incensed at the publication of statements concerning the Indiana reformatory, made by a Terre Haute labor leader on labor conditions at the reformatory, Major David C. Peyton, superintendent of the reformatory, when his attention was called to the story, refused to make any comment for publication. It is the general superintendent's policy to keep out of newspaper controversy.

ROOSEVELT TO MAKE PUBLIC RETRACTION

Truce Being Arranged Between The Colonel and Baldwin.

New Haven, Conn., Dec. 8.—It is announced by one who is familiar with the truce plan, that Colonel Roosevelt is preparing to make a public retraction of the charges that Judge Baldwin was retrogressive, as a jurist. But there is a hitch over the wording of the last sentence or two in the proposed public retraction. If that hitch can be adjusted to the satisfaction of the two men it is likely that Judge Baldwin will attend the chamber of commerce dinner and there will be no necessity for him to get after Roosevelt in the courts in a suit for slander. It is stated that Colonel Isaac M. Ullman, president of the chamber of commerce, is officiating as general peace envoy between Roosevelt and Baldwin. He is very anxious that the colonel and the governor-elect shall break bread in a peaceful union at the banquet.

Governor-elect Baldwin was requested to prepare a retraction that would suit him, and this was to be submitted to Colonel Roosevelt for approval or disapproval. Judge Baldwin wrote out a retraction and turned it over to Colonel Ullman, who turned it over in due time to Colonel Roosevelt. The document was all right except in the last sentence or two, which contained substantially a statement to the effect that Colonel Roosevelt, if he cared to, could have very easily ascertained all the information needed to set him right before he made the charge against Baldwin in that Concord address. Roosevelt did not like the wording of those sentences and the document was returned to Ullman for reference. There is where the matter stands today.

Great Strike Demonstration.

Chicago, Dec. 8.—Fifty thousand garment workers and their sympathizers marched in the largest strike demonstration made in Chicago since the teamsters' and freight handlers' strike five years ago. Banners bearing in nine languages the slogans, "We want the union label" and "Give us a square deal," were permitted by the police after they had been translated by a censor.

Doctor Held to Answer.

Rockville, Ind., Dec. 8.—Dr. H. C. Rogers, an old and well-known physician, was arrested here on a criminal charge connected with the death of Miss Daisy Clark, a young woman living at Judson. Dr. Rogers furnished bond of \$2,000 for his appearance before the circuit court.

A CLEAR BILL FOR BALLINGER

Secretary of Interior Cleared By Majority Report.

FIGHT OVER THE TWO REPORTS

The Minority Members of the Congressional Committee Having Recently Condemned Ballinger Without Reservation, Declare Theirs Is the Real Report and Will Resist Confirmation of Report Sustaining Him.

Washington, Dec. 8.—Sustaining his administration of the interior department in every particular, the majority members of the Ballinger-Pinchot investigating committee have absolutely cleared Secretary Ballinger of the charges of misconduct made against him by Gifford Pinchot and others. The majority report, which has just been submitted to congress, is in striking contrast to the report made last September by the minority members, who held that Mr. Ballinger was unfit for office and ought to be dismissed. The fight over the two reports will now be carried into the senate and the house. The minority members of the investigating committee held a meeting; and decided to maintain that their report drawn last September is the bona fide report of the committee and the document just submitted by the majority members is without official standing. The minority members will contend that their report was adopted by a majority of the committeemen who attended a meeting regularly called by the chairman in St. Paul last September, and that such is the only "majority report" entitled to consideration by congress.

Several of the Republican members of the committee were absent from the St. Paul meeting and the Republicans who have now submitted their findings held that the Democratic report was "a snap report."

One Republican, Representative Madison of Kansas, an insurgent, joined with the Democrats in the report which they made three months ago condemning Ballinger. With the assistance of Representative Madison the Democrats controlled the St. Paul meeting by a vote of five to four, and when the regular Republicans realized what the Democratic game was, several of them withdrew from the meeting so as to prevent the presence of a quorum.

A special rule will have to be adopted in the house before the fight over the reports can be carried to the floor, but the Democrats believe they will be able to get enough votes to accomplish this. In the senate the question can be brought up without difficulty. Friends of the administration expect to see a bitter contest and perhaps a good deal of mud thrown over the two reports of the committee. They do not expect Gifford Pinchot to take his medicine without stirring up further trouble. The majority report just sent to congress is signed by Senators Nelson of Minnesota, chairman; Flint of California, Sutherland of Utah and Root of New York, and Representatives McCall of Massachusetts, Olmstead of Pennsylvania and Denby of Michigan, all Republicans.

After stating that the evidence presented related in the main to charges of various kinds against Mr. Ballinger, and that these came chiefly from two sources—L. R. Glavis and Gifford Pinchot—the majority announced the following conclusion:

"The evidence has wholly failed to make out a case. Neither any fact proved nor all the facts put together exhibit Mr. Ballinger as being anything but a competent and honorable gentleman, honestly and faithfully performing the duties of his high office with an eye single to the public interest."

First He Had Heard of It.

Indianapolis, Dec. 8.—Stokes Jackson, Democratic state chairman, says that he has received a letter from one of the Indiana congressmen at Washington, informing him that the Democratic congressmen from this state will endeavor to have Jackson appointed sergeant-at-arms of the house at the next session of congress. The position pays \$6,500 a year. "That was the first I had heard that I was being considered for the place," said Jackson, "but I believe I would like it first rate."

Redmond Beaten by O'Brien.

London, Dec. 8.—One of the most interesting and highly important election announcements was the result of the polling in Cork city. William O'Brien and Maurice Healy, independent Nationalists, were elected by a combined majority of 1,164 over William Redmond and Augustine Roche.

Swindled Cloak Manufacturers.

Logansport, Ind., Dec. 8.—The police are looking for an unknown man who used the name of a local dry goods firm and swindled New York and Liverpool (O.) cloak manufacturers out of \$450. Worthless checks were given.

Run Down by Switch Engine.

Logansport, Ind., Dec. 8.—While repairing a switch Jacob Bauer, aged sixty-five and married, was killed. Bauer stepped out of the way of a passenger train and was run down by a switch engine on another track.

A Simple Safeguard For Mothers

Mrs. D. Gillespie, 326 Ingles Ave., Youngstown, Ohio, gained wisdom by experience. "My little girl had a severe cold and coughed almost continuously. My sister recommended Foley's Honey and Tar. The first dose I gave her relieved the inflammation in her throat and after using only one bottle her throat and lungs were entirely free from inflammation. Since then I always keep a bottle of Foley's Honey and Tar in the house. Accept no substitutes. A. J. Pellens.

Frank Brady, of Crothersville, was here this morning and went to Brownstown on account of the contest of the sheriff's office.

A sprained ankle will usually disable the injured person for three or four weeks. This is due to lack of proper treatment. When Chamberlain's Liniment is applied a cure may be effected in three or four days. This liniment is one of the best and most remarkable preparations in use. Sold by Andrews-Schwenk Drug Co.

Prosecuting Attorney Noble Hays was here from Scottsburg this morning and went to Brownstown to attend court.

The peculiar properties of Chamberlain's Cough Remedy have been thoroughly tested during epidemics of influenza, and when it was taken in time we have not heard of a single case of pneumonia. Sold by Andrews-Schwenk Drug Co.

Commissioners John Downing and Lon Pruitt went to Brownstown this morning to hold court for the contest case.

The greatest danger from influenza is of its resulting in pneumonia. This can be obviated by using Chamberlain's Cough Remedy, as it not only cures influenza, but counteracts any tendency of the disease towards pneumonia. Sold by Andrews-Schwenk Drug Co.

William Goecker, of Crothersville, was here this morning.

Many persons find themselves affected with a persistent cough after an attack of influenza. As this cough can be promptly cured by the use of Chamberlain's Cough Remedy, it should not be allowed to run on until it becomes troublesome. Sold by Andrews-Schwenk Drug Co.
